HEALTH SOLUTIONS FOR THE 21ST CENTURY

Attention:

You are cordially invited to attend a presentation on how Tele Health products and services are ready to revolutionise health care in Thailand.

What can be achieved?

- Huge reductions of medical industry costs.
- Realtime medical care delivered via Internet & phone.
- The ability to identify early when a patient's condition deteriorates.

What are the benefits?

- Huge reduction in hospitalisations & ER visits.
- Ability to deliver quality health care instantly over long distances.
- Greatly increased patient satisfaction.

Who should attend?

Doctors, medical professionals, IT directors of hospitals & clinics, Health Ministry officials, Army/Navy medical corps, Chambers of Commerce, health insurance companies, welfare NGOs, media.

Speaker: **Dr Thomas Earlie**
Pilot Project Manager
Tele Health Services International (Ireland)

Venue: London Room, Conrad Hotel, Bangkok
Time: 11.30am, Thursday February 22, 2007

Coffee will be served at 11.30 for informal networking. The presentation starts at 12 noon.
A light lunch for further health industry networking will follow at 12.45.
